Helpful Hints for Completion of Scholarship Application

1. High school, community college or college/university transcripts must be certified and received in sealed envelopes.
2. SATscore results must be the official score results on the official SAT form. *****NOTE: It has come to our attention that students can no longer send official ACT results to organizations not on the ACT official receiving list, which consists of educational organizations that have been assigned a code number. For this year, we will accept unofficial printed ACT results.*****
3. Clearly designate each item comprising the application package that is not an official form. For example, label the page containing the Statement of Commitment with a heading identifying what the content is intended to be. (The Statement of Commitment is simply a statement in which you describe your educational intentions. It does not have to be more than a sentence or two.) Also use a header for the essay portion of the application, organizational affiliations, activities, etc.
4. Grammar matters. Carefully read over your essay to ensure your content is organized and your points are clearly explained.
5. We must be able to easily identify your parent or guardian's military status in order to be able to consider you for the scholarship award. Please make sure the first page of the scholarship package is completely and accurately filled in.
6. Letters of recommendation need to be signed and in a sealed envelope. Occasionally we do accept emailed recommendation letters, if the sender is clearly identifiable as to their identity and professional affiliation and if the email is sent directly to the Scholarship Chairman at gail.bateman@comcast.net. Please contact us in advance if you are expecting to receive an emailed recommendation letter.
