NOTES ABOUT THE CLASS:

This program is designed for students who **currently hold their Class-A Commercial Driver's License and will run concurrently with the initial Truck driver Training Program.** Topics covered include classroom instruction, classroom instruction, logbooks, off road vehicle control skills, and behind-the-wheel driving of a Class-A combination vehicle. The course will take approximately 6- weeks to complete. Students will review many of the skills necessary to safely operate a class – A combination vehicle. **Completion of a course such as this is required by most employers of drivers who have not driven a classified vehicle within a specified period of time (usually 90 days). All students are required to have their Class – A CDL license, DOT health card, and original drug test at the time of registration. In addition, students will be subjected to random drug screening throughout the duration of the course.**

To register, or for additional information concerning this course, **please contact David Crosby** (contact information listed above). **Registrations will be accepted following course announcement date. Please note that the course will begin on the scheduled date and time pending sufficient student enrollment for the class. Otherwise the course may be postponed or cancelled.**
