

“Make the simple responses that always were and always will be right: Not to wait until someone in need asks for help, but to offer it; to perform every official act in a manner befitting both common sense and human dignity; to declare a truth when its ‘hour’ has come, even when it will bring down opposition or ridicule; to accept responsibility when the conscience considers it a duty.”—Romano Guardini

**Strategic Plan
2023-2028**

Vision

Beaufort County Community College will be an innovative, national leader among rural community colleges in the promotion of postsecondary education linked to social and economic mobility for the residents of its service region.

Mission

Beaufort County Community College is a public, comprehensive community college that provides open-door access to university transfer, workforce development, and life-long learning programs for the people of Beaufort, Hyde, Tyrrell, and Washington Counties.

We value:

Teaching and learning as the means for improving individual lives and the communities we serve.

Academic freedom for faculty to pursue knowledge and its exposition wherever it may lead, without undue or unreasonable interference, as long as faculty can show a relevant association with the topic of the course or academic program under discussion or research.

Individual human worth and the expression of the individual human spirit.

Community as the fellowship of local individuals, families, businesses, and other organizations through and for which the college seeks to make a positive impact.

Diversity as a pathway to gaining the multiple perspectives necessary for understanding our world.

Access to higher education by people from all backgrounds as critical to individual success and to the viability of a self-governing, democratic republic.

Quality as the measure of individual and institutional success in student attainment of relevant knowledge, skills, and abilities.

Affordability as an essential requirement for an open-door community college and a necessity for ensuring access from all segments of society.

Civility as the medium in which individuals from all backgrounds may engage without fear of retribution in dialogue about issues ranging from the future of the college to the state of the world at large.

Spirituality as a natural component of the human psyche, whether sectarian or secular.

We aspire to:**Break the cycle of poverty in Eastern North Carolina:**

Create hope and human dignity through access to postsecondary education and greater access to gainful employment.

Grow the middle class:

- Collaborate with business and industry to train and retrain workers for the local and regional economy.
- Collaborate with local economic development agencies to recruit and retain business and industry that will provide sustainable employment and a living wage in the service region.
- Collaborate with universities to strengthen transfer agreements and the overarching on-ramp to the baccalaureate.
- Collaborate with school systems and other organizations to enhance the social capital of school-age children and parents.

Promote self-sufficiency and economic independence:

- Reduce dependence on public and private social programs through gainful employment.
- Increase expression of the individual human will through entrepreneurship and fiscal self-reliance.

Improve the quality of life for all citizens:

- Provide life-long learning opportunities for Beaufort, Hyde, Tyrrell, and Washington Counties residents.
- Enhance public schools, transportation, and health care through economic development based on college-led workforce development (i.e., increased tax base).
- Serve as a cultural and wellness resource for the region.
- Serve as a resource for enhancing respect for human diversity throughout the College's service region.
- Serve as a resource for enhancing civil discourse between diverse elements of the population served by the College.
